

Vishali Bhagat

Product Designer | UI/UX Designer

📍 Mohali, India | ✉ vishalibhagat@outlook.com | 📞 [+91 8968365045](tel:+918968365045) | 🔗 [Selected Projects](#)

Summary

Product Designer with 4.5 years of experience designing web and mobile products across B2B, B2C and enterprise environments. Experienced in simplifying complex workflows into clear, usable experiences through user flows, interaction design, prototyping and iterative design. Recently contributed to a U.S.- based enterprise healthcare product, collaborating with cross-functional teams across product, research, engineering and clinical domains to design scalable, development-ready solutions.

Skills

- **UX Design:** UX Research & Analysis • Wireframing • Prototyping • Usability Testing • Interaction Design
- **UI Design:** Design Systems • Responsive Design • Visual Hierarchy • Accessibility Fundamentals
- **Tools:** Figma Design • Figma Make • Adobe XD • Zeplin • Miro • Whimsical • Jira • Zoho • Photoshop • Illustrator • Notion
- **Collaboration:** Client Communication • Developer Handoff • Design Reviews

Professional Experience

Recro Software Technologies (Client - Greenway Healthcare) - UX Designer

Nov 2025 - Feb 2026 | Remote | Contract

- Designed end-to-end workflows and responsive interfaces for a complex U.S.- based enterprise healthcare product, translating business requirements and clinical needs into usable product experiences.
- Created user flows, wireframes, design explorations and high-fidelity UI while ensuring consistency across interconnected features and established design-system patterns.
- Collaborated with Product, UX Research, Engineering and clinicians in weekly sprints to align business goals, user needs, technical feasibility and cross-feature dependencies.
- Iterated designs through frequent cross-functional reviews and stakeholder feedback, exploring multiple design directions for complex, data-heavy clinical workflows.
- Partnered with UX researchers to define usability issues and user behaviors to observe during testing, incorporating findings into design iterations before developer handoff.

Code Brew Labs - UI/UX Designer

Mar 2024 - Apr 2025 | Chandigarh, India

- Translated detailed Scope of Work (SOW) documents and client requirements into end-to-end user flows and high-fidelity designs across interconnected customer, service provider and admin applications.
- Collaborated directly with clients and stakeholders through kickoff calls and requirement discussions, using structured questionnaires where needed to clarify business needs, design expectations and project direction.
- Designed complete digital product experiences in Figma within fast-paced delivery cycles, often working across multiple connected applications under tight timelines.
- Reviewed competitor products, existing interaction patterns and relevant market references to inform design decisions and identify suitable UX approaches within limited research timelines.
- Created clickable prototypes and explored multiple design options where needed, iterating continuously based on client feedback, Figma comments and internal reviews with project coordinators and managers.
- Collaborated closely with development teams to assess feasibility, clarify interactions and maintain design intent through implementation.

Elite Resources - UI/UX Designer

Apr 2023 - Oct 2023 | Mohali, India

- Created concept screens, landing page flows and visual directions to support pre-sales discussions and help communicate digital product ideas to prospective clients.
- Designed and improved key sections of the company website, including industry verticals, service pages and case study experiences with a focus on clear structure and visual consistency.
- Contributed to the design of a client-facing logistics networking platform, translating requirements into user flows and interface designs for the core product experience.
- Worked independently in a small startup environment, collaborating directly with sales, marketing and development while adapting designs through ongoing feedback and evolving requirements.
- Applied brand guidelines, competitor references and relevant UX patterns to create consistent and user-friendly digital experiences.

Apptunix - UI/UX Designer

Dec 2020 - Apr 2023 | Mohali, India

- Designed mobile and web experiences across multiple domains, progressing from white-label product customization to broader end-to-end interface design for client projects.
- Translated Scope of Work documents and client requirements into detailed user flows and high-fidelity interfaces, adapting features, navigation and branding across connected applications.
- Collaborated directly with clients, project coordinators and managers through regular review calls, iterating on layouts, flows and design directions based on evolving feedback.
- Led detailed design walkthroughs with cross-functional development teams and technical leads, presenting end-to-end flows, clarifying interactions, addressing feasibility questions and refining designs before implementation.
- Prepared approved designs for developer handoff by organizing assets and specifications through Adobe XD and Zeplin, and continued supporting teams with design clarifications during implementation.
- Contributed to broader visual design initiatives, including social media campaigns, carousel content, animated creatives, case study visuals, blog assets and internal website improvements in collaboration with marketing teams.

Certifications

- Adobe XD Essential Training: Design - LinkedIn (Jan 2023)
- Foundations of User Experience (UX) Design by Google - Coursera (Feb 2023)
- Agile User Experience Design and Research - LinkedIn (May 2025)
- What is Generative AI? - LinkedIn (Dec 2025)
- Using AI in the UX Design Process - LinkedIn (Dec 2025)
- Figma: Using Auto Layout - LinkedIn (Dec 2025)
- Figma: Designing with Variables and Conditionals - LinkedIn (Jan 2026)

Education

- Bachelor of Engineering in Electronics & Communication - Punjab Technical University
- Diploma in Electronics & Communication - PSBTE
